3-Layer Education

The Three Layers of Learning ensures that all learners acquire key technical skills and soft skills and possess all the necessary attributes that ensure a successful life.

LAYER 3

KNOWLEDGE

This is the first stage where a student is taught to be a lifetime learner. The programme encourages critical thinking, collaboration, self-awareness, bouncing back from failure, identifying opportunities, and decision-making; all life skills are taught through stories, activities, and discussions.

In this phase, special Skill-Development Programmes aid the learners to develop existing skills and also aids them in identifying and bridging skill gaps to enable them to achieve their goals.

through hands-on experiences that give them an insight into the real world. This type of exposure breeds confidence and nurtures poise to deal with real-life situations.
